M. RAIHAN RAMADHANI

UI/UX DESIGNER | ASPIRING PRODUCT DESIGNER

East Jakarta, DKI Jakarta | 081315472744 | mraihanrmdhni@gmail.com

LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Information Systems graduate focused on UI/UX and product design, with experience designing user-centered digital experiences for service portals, financial applications, and web-based information systems. Skilled in understanding user needs, structuring user journeys, creating intuitive interfaces, and evaluating designs through user feedback and usability testing. Passionate about simplifying complex processes into clear, accessible, and effective digital experiences.

EDUCATION

UNIVERSITAS PEMBANGUNAN NASIONAL VETERAN JAKARTA | South Jakarta, DKI Jakarta

Bachelor of Computer Science in Information Systems | CGPA: 3.89/4.00 | *Aug 2022 - Jul 2026*

Relevant Coursework: UI/UX Design, Human-Computer Interaction, Web Programming, Information Systems Analysis and Design.

RELEVANT EXPERIENCE

PUSAT KODIFIKASI, KEMENTERIAN PERTAHANAN | South Jakarta, DKI Jakarta

UI/UX Designer Intern | *Jul 2025 - Aug 2025*

- Designed user interfaces for the NCAGE Service Portal to support the digitalization of a previously manual registration process.
- Collaborated with stakeholders to understand operational requirements and translate them into user-centered workflows and intuitive interfaces.
- Collaborated with developers to translate high-fidelity Figma designs into responsive web interfaces, ensuring alignment with design specifications and user requirements.

PT IMPACTBYTE TEKNOLOGI EDUKASI | South Jakarta, DKI Jakarta

UI/UX Design Student | *Sep 2024 - Dec 2024*

- Researched freelancer financial-management challenges, including inaccurate income and expense records, transaction tracking difficulties, and budgeting needs.
- Led the design process from ideation and feature prioritization to user flows, wireframes, and high-fidelity screens.
- Created interactive prototypes for usability testing and used user feedback to refine and validate the proposed design solution.

ORGANIZATIONAL EXPERIENCE

KSM MULTIMEDIA UPNVJ | South Jakarta, DKI Jakarta

Staff, UI/UX Division & Mentor | *Feb 2025 - Jan 2026*

- Developed 8 UI/UX learning slide decks and supporting materials for structured training sessions and practical case studies.
- Mentored 26 students through UI/UX learning sessions, providing design feedback, project guidance, and progress reviews.
- Supervised and evaluated 10 team-based capstone projects, reviewing design outcomes and providing constructive feedback.

SELECTED PROJECTS

Web-Based Information System for Learning and Clinical Practice Monitoring
UI/UX Designer & Front-end Developer | 2026
Designed and implemented front-end interfaces for a web-based system covering theory classes, practicums, and clinical practice, including logbook submission and validation. Project testing recorded 94 successful black-box test cases and a 93.51% UAT score (360/385).

NCAGE Service Portal
UI/UX Designer & Front-end Developer | 2025
Designed the service portal to digitize NCAGE registration, translating a complex administrative process into a structured digital user journey. Created high-fidelity Figma screens and supported responsive front-end implementation.

CityList - Smart City Web App
UI/UX Designer | 2025
Created a design system, landing page, and responsive mockups for an AI-powered smart-city web application that supports citizen issue reporting, with an emphasis on a consistent and user-friendly reporting experience.

UniFind - Lost-and-Found Tracking App
UI/UX Designer | 2025
Created the visual identity, design system, and interactive prototypes for a campus lost-and-found app. Shaped the experience around reporting and finding missing items, with an IoT tracking concept using ESP32/GPS and geofencing.

Filancer - Financial App for Freelancers
UI/UX Designer | 2024
- Led the end-to-end UX design process for a freelancer financial management app, covering user research, feature prioritization, user flows, wireframing, and high-fidelity prototyping.
- Evaluated 7 key mock-up screens with 5 respondents, achieving average ratings of 6.64/7 for ease of understanding (SEQ) and 6.53/7 for visual appeal; all screens exceeded the defined acceptance threshold of 5.5/7.

ACHIEVEMENTS

IN-FEST 2025 NATIONAL WEB DEVELOPMENT COMPETITION | Jun 2025
Awarded 3rd place in the national-level IN-FEST 2025 Web Development Competition for CityList, an AI-powered smart-city web application for urban issue reporting.

CERTIFICATIONS

Desainer Multimedia Madya - BNSP | Feb 2026 - Feb 2029
UI/UX Design - PT ImpactByte Teknologi Edukasi | Dec 2024
Data Analytics - Certiport / Pearson VUE | Dec 2024

SKILLS

UX & Product Design: User Research, Information Architecture, User Flows, Wireframing, Prototyping, Design Systems, Usability Testing, Responsive UI Design.
Design Tools: Figma, Canva.
Front-end & Technical: HTML, CSS, JavaScript, TypeScript, Next.js, Tailwind CSS, Bootstrap, PHP, SQL.
Professional Skills: Communication, Collaboration, Problem-Solving, Analytical Thinking.
